V.I. SUPPLY PLUS LTD

Biodegradable Disposable Tableware Brochure

Natural plant fiber
Recycling renewable
Resources,
prevent Pollution 100%
Degradable
0 burden on the earth!

V.I. SUPPLY PLUS LTD

We can design and develop according to customer requirements. We can also customize the logo for customers, customize the mold with the LOGO.

We can design and develop according to customer's requirements. We can also make a logo for the customer, make a uniform with LOGO

V.I. SUPPLY PLUS LTD is a large-scale professional supplier and export trading enterprise of environmentally friendly cellulose tableware. The company relies on high technology and uses natural plant fibers such as sugarcane pulp and bamboo pulp as raw materials. Including: lunch boxes, dinner plates, bowls, cake stands, cups, sushi boxes, chocolate boxes, straws, knives, forks, spoons, etc. Our products are widely used in takeaway food packaging, restaurants, fresh fish, fruit and vegetable packaging, food packaging, pharmaceutical industry and other fields. After use, the product can be completely decomposed into organic fertilizer. Waterproof, heat-resistant, oil-resistant, refrigeration, other indicators fully meet international environmental hygiene requirements. Our products are a global alternative to disposable plastic cutlery and plastic food packaging. The physical properties and hygienic indicators of the products comply with national BRC /HACCP /ISO /FDA /SGS standards.

We can design, develop and custom-make products of different weights, specifications and styles according to customers' needs, and custom-make logos. We have a professional R&D team that can design and custom-make products with special shapes and special applications. We attach great importance to product quality.

We are looking for strong agency partners and buyers all over the world. We will provide more favorable support in terms of product prices, minimum order quantities and mold cost.

100% biodegradable, zero burden on the earth, let's work together to maintain our planet home.

HOT SALE PRODUCTS

2OZ 4OZ SAUCE CUPS TASTING CUPS:

Two different shape designs, color: white and natural color

NEWLY DEVELOPED PRODUCTS

SUGARCANE PULP PFAS-FREE (FLUORINE-FREE) DISPOSABLE DEGRADABLE TABLEWARE

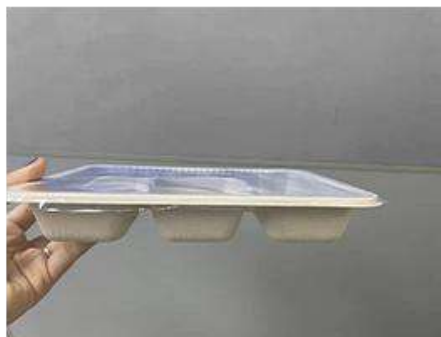

Waterproof and oil-proof, more environmentally friendly, Free samples for testing.

NEWLY DEVELOPED PRODUCTS

FULLY BIODEGRADABLE SEALING FILM:

The inner wall of sugarcane pulp-made lunch boxes, cups, bowls, trays, etc. can be heat-sealed without film coating, and it is very strong, reducing the cost of film coating.

INNER WALL COATING: (Transparent film and color film can be covered)

Laminated material: **PLA PBAT PE CPET CPP EVOH**

- 1.The coated lunch box can better prevent food from sticking, especially rice.
- 2.The airtightness is enhanced, the leakproofness is better, and the original taste of food is better kept.
- 3.The lunch box is stronger and has better stiffness, which is convenient for multi-layer stacking of lunch boxes.
- 4.High and low temperature performance is more excellent, suitable for high temperature microwave ovens, ovens, refrigerators and freezing, etc.
- 5.The film is made of food grade materials and does not contain PFAS components. It is suitable for heat sealing with more materials.

Food grade

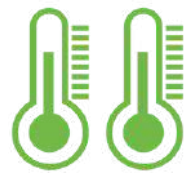

PFAS-FREE

Waterproof

Oil proof

High and low temperature

Cold storage

Microwave

Oven

Sealable

Upmax's product quality:

- 1: Our products are made of natural plant fibers such as grade A Thai sugarcane pulp, with less impurities, no metal, strong toughness, uniform molding, smooth and delicate surface.
- 2: Our products do not add any enhancers, fossil powder, corn starch and other ingredients. The physical properties and sanitary indicators of the products are in line with the national GB18006.1-1999 standards, the US FDA, European SGS, LFGB and other international testing certifications and Food Safety Management System (HACCP) certification.
- 3: Each product has been manually tested, and the factory pass rate has reached 95%. The indicators such as waterproof, heat-resistant, oil-resistant, microwaveable, and refrigerated fully meet the international environmental protection and sanitation requirements, and the product can be completely degraded into organic fertilizer after use.
- 4: We have great advantages in new product development. We can design, develop and customize products with different weights, specifications and styles according to customer requirements, and can customize LOGO.
- 5: We can provide surveillance videos of the entire production process.
- 6: We attach great importance to product quality. We are a sugarcane pulp tableware production supplier for large commercial groups and catering groups such as France Auchan and Yum!

There are more than 1,000 kinds of products in our factory. The catalogue is some of the most popular products. If you can't find a suitable product on the catalogue, you can tell me your requirements like size details, and I'll check for you.
